Welcome to the Second Edition of Evidence-Based Practice for Nurses: Appraisal and Application of Research! To help meet the changing needs of today’s faculty and students, the Second Edition has been fully integrated with a full suite of instructor and student ancillaries, helping instructors teach more efficiently and students learn more effectively.

INSTRUCTOR RESOURCES
All materials are formatted for online course management systems and can be customized to fit course needs:
- Answer Sheet for Student Journal Article Grid
- Instructor’s Manual – Save time and get direction on how to structure each lecture with chapter summaries, chapter outlines, and suggested activities for class work.
- PowerPoint Slides – Modify pre-made classroom presentations and use them in your course.
- TestBank – Customize quizzes and tests that can be printed or administered online.
- Additional Reading

For Access to Online Instructor Resources, Contact Your Account Specialist at: www.jblearning.com.

STUDENT RESOURCES
The companion website, specifically designed to complement the Second Edition of Evidence-Based Practice for Nurses, offers students an unprecedented degree of integration between the text and online world through many useful study tools, including:
- Animated Flashcards
- Critical Thinking Questions
- Crossword Puzzles
- Interactive Glossary
- Journal Articles
- Journal Article Grid
- Apply What You Have Learned Materials
- Learning Objectives
- Student Quiz
- Web Links
