CHAPTER OUTLINES

Table of Contents comparison to transition from the *Fourth* to the *Fifth Edition*

<i>Varney's Midwifery, Fourth Edition</i>	<i>Varney's Midwifery, Fifth Edition</i>
Part I: Midwifery	Part 1: Midwifery
Chapter 1: The Profession and History of Midwifery in the United States	Chapter 1: The History and Profession of Midwifery in the United States
Chapter 2: Basics of Management of Care	NEW CHAPTER! Chapter 2: Professional Midwifery Today
Part II: Primary Care of Women	
Chapter 3: Cultural Competence in Midwifery Practice	Chapter 3: International Midwifery and Safe Motherhood
	Part 2: Primary Care
Chapter 4: International Midwifery and Safe Motherhood	Chapter 4: An Introduction to the Care of Women
Chapter 5: Health Maintenance	Chapter 5: Pharmacotherapeutics
Chapter 6: Nutrition in Women's Health	Chapter 6: Nutrition
Chapter 7: Primary Care and Midwifery	Chapter 7: Health Promotion and Health Maintenance
Chapter 8: Chronic Infectious Diseases	Chapter 8: Primary Care
Chapter 9: Women and Exercise	NEW CHAPTER! Chapter 9: Mental Health Conditions
Chapter 10: Pharmacology and Midwifery	Chapter 10: Preconception Care
	Part 3: Gynecology
Chapter 11: Health Issues of Lesbian and Bisexual Women (Zeidenstein)	NEW CHAPTER! Chapter 11: Anatomy and Physiology of the Female Reproductive System
Chapter 12: Substance Abuse	Chapter 12: Menstrual Cycle Abnormalities
Chapter 13: Health Care of Midlife and Aging Women	Chapter 13: Gynecologic Disorders
Part III: Reproductive Health Care	
Chapter 14: Common Diagnoses in Women's Reproductive Health	NEW CHAPTER! Chapter 14: Breast Conditions
Chapter 15: Infections of the Genital Tract	Chapter 15: Reproductive Tract and Sexually Transmitted Infections
Chapter 16: Family Planning	Chapter 16: Family Planning
Chapter 17: Natural Methods of Family Planning	Chapter 17: Nonhormonal Contraception
Chapter 18: Non-Hormonal Contraceptive Methods	Chapter 18: Hormonal Contraception

Chapter 19: Intrauterine Contraceptive Devices	Chapter 19: Midlife, Menopause, and Beyond
	Part 4: Antepartum
Chapter 20: Hormonal Contraception	NEW CHAPTER! Chapter 20: Anatomy and Physiology of Pregnancy: Placental, Fetal And Maternal Adaptations
Part IV: Antepartal Care	
Chapter 21: Normal Pregnancy Data Base: Adaptations of the Mother, Development and Growth of the Embryo and the Fetus, and the Placenta	NEW CHAPTER! Chapter 21: Genetics
Chapter 22: Management Plan for Normal Pregnancy	Chapter 22: Prenatal Care
Chapter 23: Fetal Assessment	Chapter 23: Obstetric Complications in Pregnancy
Chapter 24: Screening for and Collaborative Management of Antepartal Complications	Chapter 24: Medical Complications in Pregnancy
	Part 5: Intrapartum
Chapter 25: Complications of Gestational Age Assessment and the Post Date Pregnancy	NEW CHAPTER! Chapter 25: Anatomy and Physiology During Labor and Birth
Chapter 26: The Normal First Stage of Labor	Chapter 26: First Stage of Labor
Part V: Intrapartal Care	
Chapter 27: Fetal Assessment in Labor	Chapter 27: Fetal Assessment During Labor
Chapter 28: The Normal Second Stage of Labor	NEW CHAPTER! Chapter 28: Support for Women in Labor
Chapter 29: Screening for and Collaborative Management of Selected Complications During the First and Second Stages of Labor	Chapter 29: The Second Stage of Labor and Birth
Chapter 30: Management of Selected Obstetric Complications and Deviations from Normal	Chapter 30: Complications during Labor and Birth
Chapter 31: The Normal Third Stage of Labor	Chapter 31: Third and Fourth Stage of Labor
Chapter 32: Third Stage Complications and Management	Chapter 32: Birth in the Home and Birth Center
	Part 6: Postpartum
Chapter 33: The Normal Fourth Stage of Labor	NEW CHAPTER! Chapter 33: Anatomy and Physiology of Postpartum
Chapter 34: Management of Immediate Postpartum Hemorrhage	Chapter 34: Postpartum Care

Chapter 35: Birth in the Home and Birth Center (Bailes and Jackson)	Chapter 35: Postpartum Complications
Part VI: Newborn Care	
Chapter 36: Physiological Transition to Extrauterine Life	Chapter 36: Breast Feeding and the Mother-Newborn Dyad
	Part 7: Newborn
Chapter 37: Immediate Care and Assessment of the Healthy Newborn	NEW CHAPTER! Chapter 37: Anatomy and Physiology of the Newborn
Chapter 38: Resuscitation at Birth	Chapter 38: Care of the Newborn at Birth
Chapter 39: Examination of the Newborn	Chapter 39: Neonatal Care
Chapter 40: Primary Care of the Newborn: the First 6 Weeks	
Chapter 41: Recognition and Immediate Care of Sick Newborns	
Part VII: Postpartal Care	
Chapter 42: The Normal Puerperium	
Chapter 43: Infant Feeding Methods	
Chapter 44: Screening for and Midwifery Management of Puerperal Abnormality	
Part VIII: Skills	
Chapter 45: Universal Precautions	
Chapter 46: Finger Puncture	
Chapter 47: Venipuncture	
Chapter 48: Inserting an Intravenous Catheter	
Chapter 49: Giving Intravenous Medications	
Chapter 50: Spin-Down Hematocrit	
Chapter 51: Removal of Norplant	
Chapter 52: Breast Examination	
Chapter 53: Obstetric Abdominal Examination	
Chapter 54: Checking for Costovertebral Angle Tenderness (CVAT)	
Chapter 55: Checking for Deep Tendon Reflexes and Clonus	
Chapter 56: Pelvic Examination	
Chapter 57: Obtaining a Specimen for Papanicolaou (Pap) Diagnostic Evaluation	
Chapter 58: Obtaining a Specimen for Gonococcal (GC) and Chlamydia Diagnostic Testing	
Chapter 59: Making a Wet Smear Slide of Vaginal Secretions	

Chapter 60: Using a Microscope	
Chapter 61: Anatomy of the Pelvis, Pelvis Types, Evaluation of the Bony Pelvis, and Clinical Pelvimetry	
Chapter 62: Breast Massage, Manual Expression, and Nipple Rolling	
Chapter 63: Injection of Intradermal Sterile Water Papules for Relief of Low Back Pain in Labor	
Chapter 64: Attaching a Fetal Scalp Electrode	
Chapter 65: Inserting an Intrauterine Pressure Catheter; Amnioinfusion	
Chapter 66: Perineal Prep (Cleaning)	
Chapter 67: Second Stage Pushing	
Chapter 68: Pudendal Block	
Chapter 69: Local Infiltration	
Chapter 70: Hand Maneuvers for Birth of a Baby with the Mother in Lithotomy or Modified Lithotomy Position	
Chapter 71: Hand Maneuvers for Birth of a Baby with the Mother in Dorsal Position	
Chapter 72: Hand Maneuvers for Birth of a Baby with the Mother in the Hands and Knees Position	
Chapter 73: Hand Maneuvers for Birth of a Baby with the Mother in the Squatting or Supported Squat Position	
Chapter 74: Inspection of the Placenta, Membranes, and Cord	
Chapter 75: Postbirth Inspection of the Cervix and Upper Vaginal Vault	
Chapter 76: Manual Removal of the Placenta	
Chapter 77: Fourth Stage Intrauterine Exploration	
Chapter 78: Bimanual Compression	
Chapter 79: Cutting an Episiotomy and Repairing Episiotomies and Lacerations	
Chapter 80: Physical Examination of the Newborn	
Chapter 81: Circumcision	
Chapter 82: Endometrial Biopsy	

SUMMARY

After nearly a decade, the gold standard for midwives and students is back with ***Varney's Midwifery, Fifth Edition***. New to this edition are chapters describing the profession of midwifery, reproductive physiology, clinical genetics, and support for women in labor. Interwoven throughout is information on primary care, gynecology, maternity care, and neonatal care.

With chapters written by a variety of midwife experts and an increased emphasis on reproductive anatomy and physiology, this new edition assists students and new clinicians in understanding not only what to do but why. Updated to reflect evidence-based care, this edition also discusses the pathophysiology of various conditions in the context of normal changes in the reproductive cycle.

In this edition, the skills chapters have been significantly revised and reformatted into relevant chapter appendices to help students, new midwives, and international readers learn essential skills in sequential steps. These critical midwifery skills include performing a pelvic examination, hand maneuvers for birth, delivery of a fetus in breech presentation, and current evidence-based steps for managing a postpartum hemorrhage.

NEW CHAPTERS INCLUDE:

- Professional Midwifery Today
- Mental Health Conditions
- Breast Conditions
- Anatomy and Physiology of the Female Reproductive System
- Physiologic Changes in Pregnancy and Fetal Development
- Genetics
- Anatomy and Physiology of the Intrapartum Period
- Support for Women in Labor
- Anatomy and Physiologic Changes in the Postpartum Period
- Anatomy and Physiology of the Newborn
