Summary

Policy and Politics for Nurses and Other Health Professionals, Advocacy and Action, Second Edition focuses on the idea that all health care providers require a fundamental understanding of the health care system including but not limited to knowledge required to practice their discipline. The text discusses how health care professionals must also prepare themselves to engage in the economic, political and policy dimensions of health care.

The *Second Edition* offers a nursing focus with an interdisciplinary approach intertwined to create an understanding of health care practice and policy. The text is enriched through the contributions from nurses and other health professionals including activists, politicians, and economists who comprehend the forces of healthcare in America how their impact on the everyday provider. The new edition features key updates on the current health care environment including the Affordable Care Act.

Instructor Resources include:

- Test Bank
- Web Link Resources
- PowerPoint™ Slides

Applicable Courses

- Graduate Level Courses
- DNP level Health Policy courses

Chapter Outline

This chapter outline comparison has been created to help you easily transition to the **Third Edition**. To map content from the previous edition simply match the chapter title and page numbers in the new edition column.
