Navigate 2 Advantage Access

This transition guide serves to outline the updates and new content found in **Contemporary Health Promotion In Nursing Practice, Second Edition**.

## SUMMARY

**Contemporary Health Promotion In Nursing Practice, Second Edition** focuses on why health promotion is an integral part of nursing practice, health promotion theories, and genetic and social determinants of health. The *Second Edition* uses a strengths-based approach to address patient care with an emphasis on the importance of shared decision-making, social determinants of health, wellness, health literacy, and health disparities. This text is rooted in a thorough discussion of health promotion theories, historical documents and policies (Patient Protection and Affordable Care Act) that have shaped health promotion practice, as well as the nurse's role in health promotion. This text covers a wide range of topics including smoking cessation, chronic disease management, stress reduction, obesity, and health promotion measurement with examples.

## KEY FEATURES:

- History of health promotion and current developments
- Current and updated references throughout each chapter
- New nursing and non-nursing theories have been added to the theory chapter
- Updated content in the health policy and nursing informatics chapters
- Healthy People 2020 goals discussed throughout the text
- Covers creative approaches to health promotion including photo voice, soap operas, street theater and art therapy
- Navigate 2 Advantage Access

## APPLICABLE COURSES:

- Higher level undergraduate and MSN and DNP courses in health promotion

## INSTRUCTOR RESOURCES:

- Slides in PowerPoint format
- Assessment quizzes
- Midterm exam
- Final exam
- Lecture outlines

## CHAPTER UPDATES:

- Chapter 4: Genetic and Social Determinants of Health: An Ecological Perspective
- Chapter 5: Health Disparities
- Chapter 9: Nursing Informatics
- Chapter 12: Health Promotion Policy
