

Personal and Professional Growth for Health Care Professionals

David Tipton

Chapter 5, page 111

The scale for the personality assessment was omitted. The scale relates to each of the following five assessments:

Agreeableness: pg 111

Extroversion: pg 113

Neuroticism: pg 116

Openness to experience: pg 118

Conscientiousness: pg 121

Scale

1= Very inaccurate

2= Moderately inaccurate

3= Neither inaccurate or accurate

4= Moderately accurate

5= Very accurate

Chapter 15, page 378

Remove the title “Suggested Readings”

The Suggested Readings are more properly cited as References.
