Request a FREE Essential Public Health Series Information Kit Today

Request a FREE information kit today at www.essentialpublichealth.com. With articles, curriculum recommendations, series information, and more, this kit will help jump start an undergraduate public health program at your institution.

Put Your Students on the Path to Good Citizenship

From the impact of AIDS to the cost of health care, the Jones & Bartlett Learning **Essential Public Health** series will introduce your students to the full range of issues that impact the public's health. Designed to meet the AAC&U curriculum *Recommendations for Undergraduate Public Health Education*, this is the ideal suite of texts for programs offering courses in Public Health, Global Health, and more.

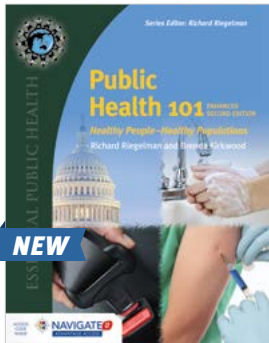

ABOUT THE EDITOR

Richard K. Riegelman, MD, MPH, PhD is Professor of Epidemiology-Biostatistics and Founding Dean of The George Washington University Milken Institute School of Public Health. Dr. Riegelman has taken a lead role in developing the Educated Citizen and Public Health initiative which has brought together arts and sciences and public health education associations to implement the Institute of Medicine of the National Academies recommendation that "...all undergraduates should have access to education in Public Health." He also led the development of the undergraduate Public Health major and minor at The George Washington University and currently teaches "Public Health 101" and "Epidemiology 101" to undergraduates.

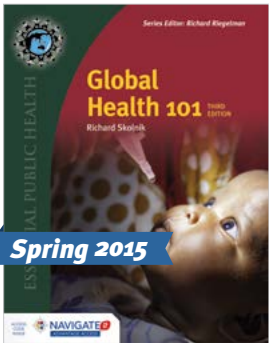

Designed to meet the AAC&U
Recommendations for Undergraduate Public
Health Education, this is the ideal suite of texts
for programs offering courses in Public Health,
Global Health, Epidemiology, and more.

Comprehensive, consistent, and clear,
this series is unlike anything else
available today.
