

# TRANSITION GUIDE

**Jeri A. Milstead**, PhD, RN, NEA-BC,  
FAAN

**Nancy M. Short**, DrPH, MBA, BSN, RN,  
FAAN

ISBN: 978-1-284-12637-2  
Navigate 2 Premier Access • 260 pages • ©2019

This transition guide serves to outline the updates and new content found in **Health Policy and Politics: A Nurse's Guide, Sixth Edition**.

## NEW CHAPTERS:

- Chapter 12, Insider's Guide to Engaging in Policy Activities, provides "how-to" segments so readers can become involved in the policy process in an informed, professional manner.

## REVISION UPDATES:

- All theory content has been updated. Some material has built on early, classic works that have become foundational to the topic.
- New case studies have been created to reflect current issues.
- Discussion Points afford the reader an opportunity to connect the theory to actual practice.

## LIST OF OUTSTANDING FEATURES:

- Dr. Nancy Short has joined Dr. Jeri Milstead on this 6th edition. Both are experts in health policy.
- This textbook examines how public policy is made and covers the whole process from agenda setting through evaluation. Novices often equate policy with legislation but making laws is only a small part of the whole process. The content is based on theory from political science and nursing and uses case studies to emphasize and clarify concepts and models and provide application exercises for readers.
- Four new authors have contributed their expertise and bring a fresh look to the chapter content.
- More images, graphs and visualization of concepts are included for the visual learner. Prose has been replaced with tables and side bars where appropriate.
- The Centers for Disease Control's model of the policy process has been used throughout the book.

## APPLICABLE COURSES:

- Graduate-level (master's and doctoral) policy courses in nursing
- Graduate-level (master's and doctoral) policy courses in related health professions
- Policy content within graduate-level courses (professional role, leadership, current topics, etc.) in nursing
- Policy content within graduate-level course (professional role, leadership, current topics, etc.) in related health professions
- Interprofessional policy courses, seminars

## TARGET AUDIENCE:

- Master's and doctoral students in nursing and related health care professions

## INSTRUCTOR RESOURCES:

- Syllabus
- Case Studies
- Discussion Questions
- Test Bank
- PowerPoints
- Instructor Resource Guide
