- Chapter 15: Enhanced Primary Care Roles for Nurses and Other Professionals
- Chapter 17: Health Information Technology and the Intersection of Health Policy
- Chapter 18: Political Power of Nurses: Harnessing Our Values & Voices
- Appendix: Advocacy in Action

LIST OF OUTSTANDING FEATURES

- Focus on the need for nurses and other health professionals to be informed of, educated on, and advocates for health care policy
- Coverage of the historical roots and empirical and theoretical framework of policy, politics, and power alongside current and up-to-date discussions of the challenges facing the health policy landscape today
- Inclusion of case studies that offer real-life scenarios and illustrate how nurses and health professionals can creatively problem-solve and leverage resources to address policies and politics of health care
- Emphasis on the importance of inter-professional teamwork in health care systems and the diverse socio-economic challenges affecting many global communities

REVISION UPDATES

- The third edition features a completely reorganized TOC. All content has been updated to reflect the most current challenges in health policy today, and Section III features heavily updated coverage of the ACA.
- All chapters now include at least one case study to help students close the gap in understanding how policy and politics impact health care systems. This edition also includes a final case study in the Appendix which focuses on value-based advanced disaster planning.
